School calendars are available in two formats. Either the wall hanging A4 type (with white wire binding) or the desktop CD case type. See our website for pictures.

Please remember that school calendars can also run from September – August (with the school year) so do not just have to be for Christmas!

In both cases calendars can have any pictures that you want either colour drawings or photographs. In the case of the A4 wall calendars the most popular for schools is the calendar made up of individual drawings done by the children (like the tea towel format).

The CD case calendars can have pictures done by each class etc.

In both cases it is necessary for you to produce suitable artwork (which we can scan if necessary). We hope to produce a detailed advice sheet in due course but in the meantime please contact us for more information.

It is also possible for a small supplement to produce calendars with each child's own picture on the cover. Again get in touch for more information.
